MICROFONO SUPERCARDIOIDE

The Opus 29 S is a great entry-level dynamic microphone for newcomers and can be used for miking speech and vocals on stage, but also for home studio or cassette player recordings and for Karaoke. Its supercardioid polar pattern ensures excellent feedback rejection. The Opus 29 S disposes of a silent On/Off switch for on-stage control and is supplied with a standard microphone cable (XLR-XLR, 5 m), microphone clamp and storage bag.

Caratteristiche

- Entry-level microphone for newcomers
- For vocal applications tailored frequency response
- High SPL capability
- With silent On/Off switch for on-stage control
- Durable metal construction
- Supplied with standard microphone cable (XLR-XLR, 5 m), microphone clamp and storage bag

Specifiche tecniche

- Transducer type Dynamic
- Operating principle Pressure gradient
- Frequency response (close miking) 50 - 16,000 Hz
- Frequency response (distant miking) 100 - 14,000 Hz (measured at 1metre)
- Polar pattern Supercardioid
- Nominal impedance 600 Ω;
- Load impedance 1 kΩ;
- Length 182 mm
- Shaft diameter 24/37 mm

BEYERDYNAMIC OPUS 29S Microfono Supercardioido

- Head diameter 52 mm
- Weight without cable 320 g
- Connection 3-pin XLR male
- Rear attenuation > 15 dB at 135°
- Open circuit voltage 2.4 mV/Pa

Prezzo : €45,00 IVA inclusa (€36,89 esclusa IVA)
