

NATIVE INSTRUMENTS Traktor Scratch Cable 2 - Mixer Segments

Produttore : Native Instruments
Cod.Art. : 8214

CAVO MULTICONNESSIONE

Native Instruments' Multicore Cable creates a simple and efficient method of connecting the components of any digital vinyl system (DVS), like Traktor Scratch, Serato Scratch Live, Torq, Virtual Vinyl or Final Scratch. By unifying all the cabling from turntables, CD players, mixer and audio interface into two locking XLR connections, it allows the DJ to easily transport his/her laptop and audio interface to any other traditional DJ setup (turntables/CDJs + mixer).

Caratteristiche

- When pre-installed, TRAKTOR SCRATCH connects with 2 clicks to mixer and turntables
- Multicore Cable with XLR-plug connecting each decks inputs and outputs at once
- High quality cables and components for lossless transmission and hassle free setup
- Integrated direct connection from turntables to mixer (independent from connected audio interface)
- 120cm cable length allow to place the audio interface anywhere in the booth
- Hot-pluggable while connected turntables are playing - digital track continues playing

Prezzo : €29,00 IVA inclusa (€23,77 esclusa IVA)
