SISTEMA DI MONITORAGGIO VIDEO A 3 SCHERMI LCD

The Numark VM03 is a 3 screen/6 input LCD video display monitor designed for any video monitoring application. The advanced design of the VM03 allows the user to monitor his video source in either a rack mount or table top application. What separates the VM03 from other video monitors in the market is the adjustable design of the viewing angle. This unique and original design allows the video producer/engineer to properly position the viewing angle of the VM03 up to 96 degrees. The feature works while the VM03 is either being used on a table top or mounted in a professional rack (3U spaces required). This flexibility in viewing angle is ideal for DJ and broadcast applications, where limited space may prohibit easy viewing angles.

Caratteristiche

- TV Systems: NTSC, PAL
- Number of Screens: 3
- Screen Type: Color TFT LCD Display
- Screen Size: 5 inches (diagonal)
- Screen Active Area: 102.6mm(H) x 73.9mm(V)
- Screen Pixels: 600 x 234
- Screen Dot Pitch: 0.171mm x 0.316mm
- Screen Optimum Viewing Angle: 6 o'clock
- Dimensions (W x H x D): 19" x 2-5/8" x 5"
- Weight: 5.35 Lbs, 2.42Kgs
- Maximum Tilt Angle: 96°
- Inputs:
2 RCA Composite Video per Screen Switchable on Front Panel
- Daisy Chain Output: 2 RCA Composite Video per Screen
- Mounting:
19" Rack (3U) Desktop
- Power Adapter 12V DC
