MULTIEFFETTO PER CHITARRA CON SCHEDA AUDIO USB

Our completely redesigned drive sounds use our most technologically advanced spectral analysis, impulse response and frequency response data, making all the new settings offered on the G2Nu/G2.1Nu the most realistic models we've ever created. There are 20 models of legendary guitar amps and stomp boxes, with accurately fine-tuned sonic aspects like gain setting, range and harmonics character. In addition, you can choose from 10 original sounds created by ZOOM, designed for excellent clarity and presence, capturing your dynamic range adjustments and picking nuances that give you that truly expressive tone that you crave.
