

## STANTON SCS 3 S SYSTEM

stanton

Cod.Art. : 9161

### CONSOLLE PER DJ

La consolle è composta da un controller Stanton Touch Screen SCS 3.M e due controller Stanton Touch Screen SCS 3.D. Grazie a questa configurazione si lavora con la stessa manualità e la stessa ergonomia di una consolle analogica composta da 2 giradischi o da un cd player ed un mixer.

#### Caratteristiche principali SCS.3M

- 4 Channel Control - The SCS.3m features two channel strips for control of two channels of a software mixer at any one time. However, each channel strip can be switched to control an additional two channels for a total of four channels of control with the 3m, providing a scalable interface while remaining portable at the same time.
- EQ / FX Control Modes - The 4 touch sensitive sliders and 4 buttons in each channel strip can be switched to control either EQ or FX functions (or remapped for other on screen controls). This allows for 8 parameters and 8 buttons to be accessed within each channel (deck).
- USB Hub - The built in powered 4-port USB hub can be used to connect additional SCS.3 products to the SCS.3m allowing a single USB cable to be connected to the computer.
- Traktor - Every SCS.3m comes with the ability to unlock the LE version of Native Instruments' award winning Traktor PRO software.
- Intelligent Firmware - The SCS.3m features 3 intelligent firmware control modes for use with different types of applications.

## STANTON SCS 3 S SYSTEM

### SCS.3D

- See Me, Feel Me - DaScratch's layout and portability provide DJs with an unmatched level of performance and control. The StanTouch® interface can be used for scratching, scrubbing, and navigating through digital audio.
- Hook Me Up - Magnect connection system allows multiple DaScratch units to securely snap together, creating a larger control surface with increased performance options.
- Teach Me - DaRouter™ software gives DaScratch a little brain of its own, allowing customized support for a variety of applications. DaRouter runs on Mac / PC and will automatically load presets that are tailored towards the application the SCS.3d is controlling.
- Dimensions: H216.5x120x35.25 mm
- Weight: 1.2 kg

### Requisiti minimi di sistema
