

BUGERA BC30-212

Produttore : Bugera

Cod.Art. : 9294

AMPLIFICATORE VALVOLARE CLASSE A 30W

The BC30-212 is the ultimate in tonal purity. The preamp conditions your signal then lets the power amp and speakers have their way with it. The amp becomes an extension of your guitar and your fingers - no channel switches or signal boosting devices to change the tone. Instead, you control the amp from the guitar; your dynamic nuances, picking technique, pickups, volume control, and tone knobs determine the sound you hear. Pick gently for crystal-clear clean tones. Pick hard, and you'll be rewarded with bone-shattering crunch. It's that simple. The power amp section features four EL84 valves, the highly reactive, breakup prone secret to the sound that made England's finest amps (and guitarists) world famous. With the simple flick of a switch, you can choose two EL84's (15 W) or all four (30 W), giving the BC30-212 the power to restrain volume for smaller venues, or peel the paint off the walls in larger rooms.

Caratteristiche

- Hand-built 30-Watt Class-A guitar combo driven by 4 x EL84 valves
- Mind-blowing distortion with terrifying punch and breathtaking vintage clean that breathes with headroom
- True valve rectifier gives you the flexibility of using one 5AR4 for an explosive attack or two 5U4s (not included) for a smooth and round response
- Channel 1 features two 12AX7s creating a parallel triode circuit and an interactive EQ with amazing responsiveness
- Channel 2 sports a high gain channel based on a specially selected 12AX7 valve coupled to a 6-position tone switch
- Power amp section features a Cut control for rolling off the high end plus a Master volume control
- Power switch reduces output power to 15 Watts for more sound variation
- Speaker Reverse switch reverses the direction of the speaker

BUGERA BC30-212

to influence the amount of distorted sound

- Each channel offers an independent effects loop
- Illuminated front panel and logo for a super cool look
- Impedance switch (4, 8 and 16 Ohms) to match virtually any speaker cabinet
- High-quality components and exceptionally rugged construction ensure long life
