Cod.Art. : 9558

INTERFACCIA AUDIO USB

CI2+ and Cubase Essential 5 present the ideal tool kit for singers and songwriters looking to record vocal lines, preparing playbacks and creating entire songs. The +48 V phantom power of the CI2+'s two high-quality mic preamps provide all capabilities necessary to connect any microphone for recording vocal tracks.

Cubase Essential 5 offers virtual instruments and sounds for creating professional-sounding accompaniments, such as playback for vocal exercises or even an entire demo. Various effect plug-ins for editing vocals are readily available and easy to control with the CI2+'s AI Knob. The CI2+'s interface comes with a footswitch connector enabling hands-free recording in Cubase Essential 5.

Here

you have the choice between 14 different amp and 10 speaker cabinet emulations thanks to the Amp Simulator.
