MICROFONO A CONDENSATORE OMNIDIREZIONALE

The OmniMouse is a small diaphragm omni condenser microphone featuring a rotating omnidirectional capsule enclosed within a spherical grille. This is the same B4 capsule used in Blue's world-renowned Bottle microphone system. This precision recording tool combines the low noise and superb transient response of top-grade modern electronics with crisp, detailed high frequency response. OmniMouse is ideally suited to classical ensemble and large orchestra recording.

Specifiche tecniche

- Acoustical Operating Principal: Pressure
- Directional Pattern: Omnidirectional
- Frequency Range: 20Hz – 20KHz
- Sensitivity at 1 kHz into 1kOhm: 8mV/Pa
- Output Impedance: 150 Ohm
- Rated Load Impedance: Not less than 1 Ohm
- S/N ratio DIN/IEC 651: 74dB-A
- Noise Level DIN/IEC 651: 20dB-A
- Max SPL (0.5% THD) into 2.5kOhm: 145dB
- Dynamic Range (2.5kOhm load): 96dB

Prezzo : €1.499,00 IVA inclusa (€1.228,69 esclusa IVA)
